

**1.** Ingresar a la **consola openshift** y crear un proyecto «**arquitecturaibm**»

**\_2.** Luego de crear el proyecto, vamos a desplegar una aplicación web **html/css/js/bootstrap**, aquí una vista previa de la página web, el código fuente está en un repositorio de github:

<https://github.com/juliopari/bootstrap-web-consulting>

# Pricing

Quickly build an effective pricing table for your potential customers with this Bootstrap example. It's built with default Bootstrap components and utilities with little customization.

Free	Pro	Enterprise
<b>\$0 / mo</b>	<b>\$15 / mo</b>	<b>\$29 / mo</b>
10 users included 2 GB of storage Email support Help center access	20 users included 10 GB of storage Priority email support Help center access	30 users included 15 GB of storage Phone and email support Help center access

**\_3.** Vamos a desplegar la web **desde github** utilizando la **imagen de PHP**, ingresamos a la **consola Openshift**

PHP

Information Configuration Results

1 2 3

\* Add to Project  
Arquitectura IBM

Version  
7.2 — latest

\* Application Name  
arquitecturaibmweb

\* Git Repository  
https://github.com/juliopari/bootstrap-web-consulting.git  
[Try Sample Repository ↕](#)

If you have a private Git repository or need to change application defaults, view [advanced options](#).

Cancel < Back Create

The screenshot shows the OpenShift Online interface. At the top, it says 'OPENSIFT ONLINE' and 'Application Console'. Below that, there's a navigation bar with 'Arquitectura IBM' selected. On the left, there's a sidebar with menu items: Overview, Applications, Builds, Resources, Storage, Monitoring, and Catalog. The main content area shows the application 'arquitecturaibmweb'. Underneath, there's a 'DEPLOYMENT CONFIG' section for 'arquitecturaibmweb', which includes a 'Builds' button with a refresh icon and the number '1'. This 'Builds 1' button is highlighted with a red rectangle.

**\_4.** Finalmente se crearán varios objetos **openshift** como: **service, pods, deployment, routes** y se podrá acceder a la web desde la ruta generada que en este caso sería:

<http://arquitecturaibmweb-arquitecturaibm.e4ff.pro-eu-west-1.openshiftapps.com/>
