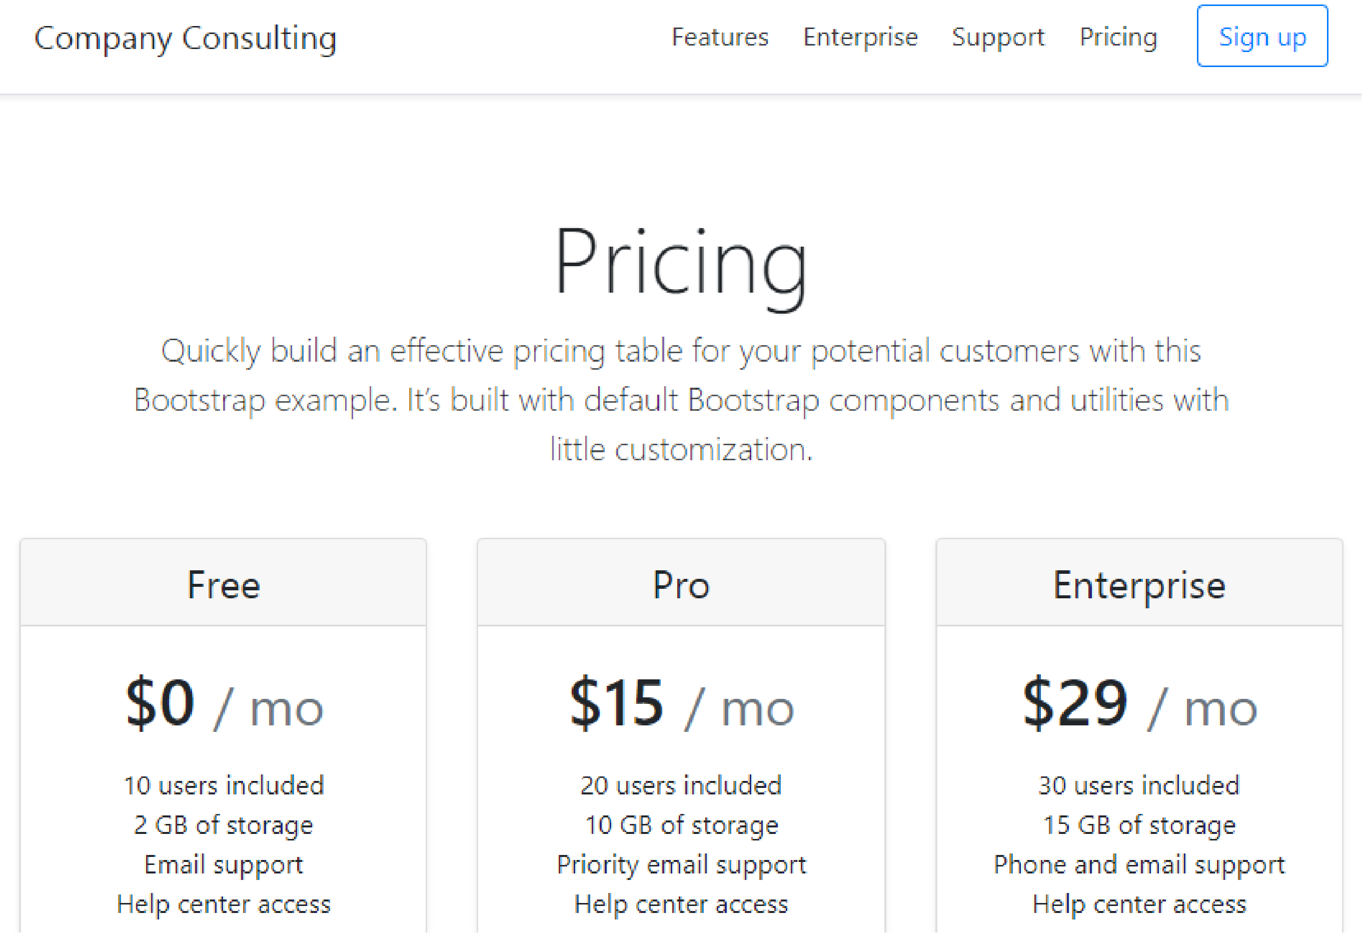
_**2**. Luego de crear el proyecto, vamos a desplegar una aplicación web **html/css/js/bootstrap**, aquí una vista previa de la página web, el código fuente está en un repositorio de github: https://github.com/juliopari/bootstrap-web-consulting



Pricing

Quickly build an effective pricing table for your potential customers with this Bootstrap example. It's built with default Bootstrap components and utilities with little customization.

Free	Pro	Enterprise
$0 / mo	$15 / mo	$29 / mo
10 users included 2 GB of storage Email support Help center access	20 users included 10 GB of storage Priority email support Help center access	30 users included 15 GB of storage Phone and email support Help center access

_**3**. Vamos a desplegar la web **desde github** utilizando la **imagen de PHP**, ingresamos a la **consola Openshift**
