Portlets Pulse en Copiar para crear un duplicado de un portlet. Pulse en Configurar para establecer títulos, descripciones y parámetros. Pulse en Suprimir para eliminar el portlet de su portal. Pulse Asignar acceso para permitir que otros trabajen con el portlet.

Título	Tipo de API	Nombre exclusivo	Proporcionado	Estado
Tutorial Basics - My First Portlet Solution	JSR 286			
WEF Tutorial DB Access Solution	JSR 286			
Accessible WEF Tutorial DB Access Solution	JSR 286			
Multichannel Orders Service Consumer	JSR 286			

Página 1 de 1

The screenshot shows the IBM Web Experience Factory IDE interface with three main windows:

- Application Tree:** Shows the project structure with a page named 'page1' under the 'main' container.
- Outline:** A tree view of the page components. Item 3 'main' (Action List) and item 4 'page1' (Page) are highlighted with red boxes. Red arrows point from these boxes to the configuration windows below.
- Action List Configuration (main):** Shows the configuration for the 'main' Action List. The 'Name' is 'main' and the 'Return Type' is 'Object'. Under 'Actions', 'page1' is listed. A tooltip at the bottom states: "Select the actions for this action list to execute. They will be triggered in sequence, from top to bottom."
- Page Configuration (page1):** Shows the configuration for the 'page1' Page. The 'Name' is 'page1'. Under 'Page Contents (HTML)', the following code is visible:

```

      <html>
      <head> <title> My First Portlet Tutorial </title> </head>
      <body>
      <form name="myForm" method="post">
      <div align="center"> <div style="font:12pt Arial;font-weight: bold;color: #336699;"> IBM WebSphere Portal 8.5 </div> <br>
      <span name="namedTag"> Use a named tag to place the results of a builder call on a page.</span>
      </div>
      </form>
      </body>
      </html>
      
```

Hello World Portlet utilizando IBM Web Experience Factory 8.5 para IBM WebSphere Portal 8.5 CF13 | 2

The screenshot shows the configuration interface for a 'Text' portlet. The 'Properties' section is expanded, showing the following settings:

- Name: (empty)
- Page Location: Location Technique: On Named Tag, Relative to Named Tag, Advanced
- Page: page1
- Tag: namedTag
- Text: Desarrollo de Portlets utilizando IBM Web Experience Factory 8.5
- Lookup Table Used: None
- Text Format: Display tags as written (Encode formatting tags so they display as visible text in the browser)
- Replace Tag Contents:

The 'Outline' pane on the right shows a tree structure with the following items:

#	Name	Type
1	Copyright	Comment
2	About this model	Comment
3	main	Action List
4	page1	Page
5	namedTag	Text
6	Enable Portlet	Comment
7	WEFTutorialBasi...	Portlet Adapter

Red boxes highlight the 'namedTag' configuration and its corresponding entry in the Outline pane. A red arrow points from the Outline pane to the configuration area.

The screenshot shows the configuration interface for a 'Portlet Adapter'. The 'Properties' section is expanded, showing the following settings:

- Name: WEFTutorialBasicsSolution
- Portlet Title: Tutorial Basics - My First Portlet Solution
- Portlet Short Title: (empty)
- Portlet Keywords: (empty)
- Portlet Description: Simple example to demonstrate core concepts
- Default Locale: en
- Additional Locales: (empty)

The 'Outline' pane on the right shows a tree structure with the following items:

#	Name	Type
1	Copyright	Comment
2	About this model	Comment
3	main	Action List
4	page1	Page
5	namedTag	Text
6	Enable Portlet	Comment
7	WEFTutorialBasi...	Portlet Adapter

Red boxes highlight the 'WEFTutorialBasicsSolution' configuration and its corresponding entry in the Outline pane. A red arrow points from the Outline pane to the configuration area.

The screenshot shows the IBM WebSphere Portal 8.5 user interface. The browser address bar shows the URL: 127.0.0.1:10039/wps/myportal/wef85/helloworld/tut/p/z1/04_Sj9CPykssy0xPLMnMz0vMAfIjo8zif1NHQ2dTQz8_T19DA0C3b3dfEICDQ0M_M30w8EKDHAARwP9KGL041EQhd_4MP0o_ajIeqA5UXitsjCHKsBjVkfuaGieWZAJ... The page title is 'helloworld'. The main content area displays the following text:

IBM WebSphere Portal 8.5
Desarrollo de Portlets utilizando IBM Web Experience Factory 8.5

A red box highlights the portlet content, and a red arrow points to it from the right.
