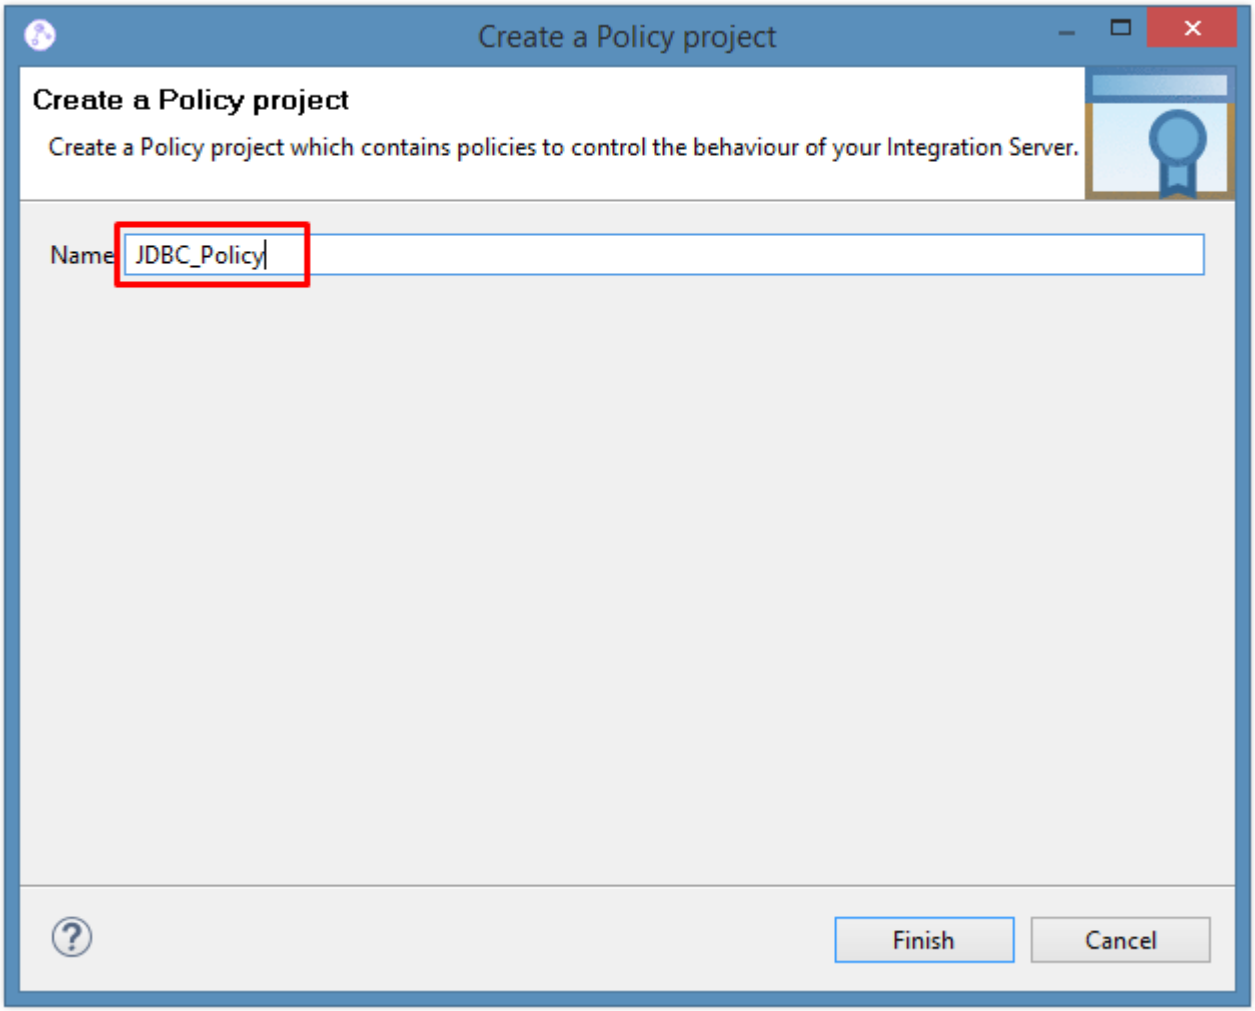
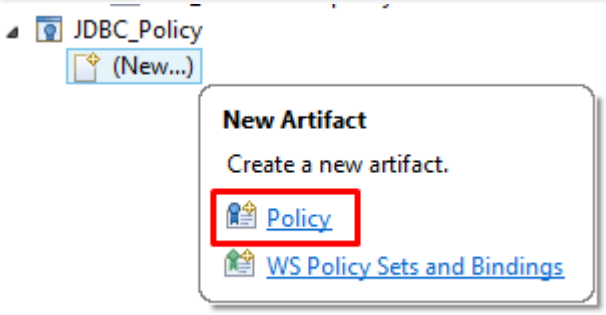
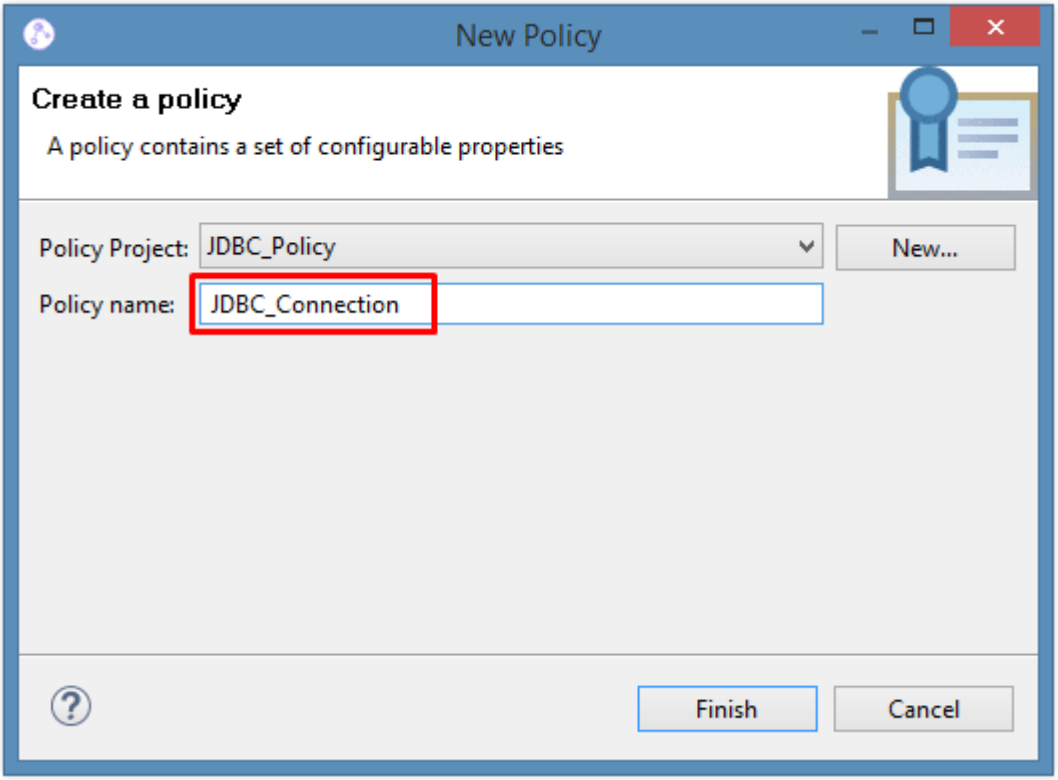
Description



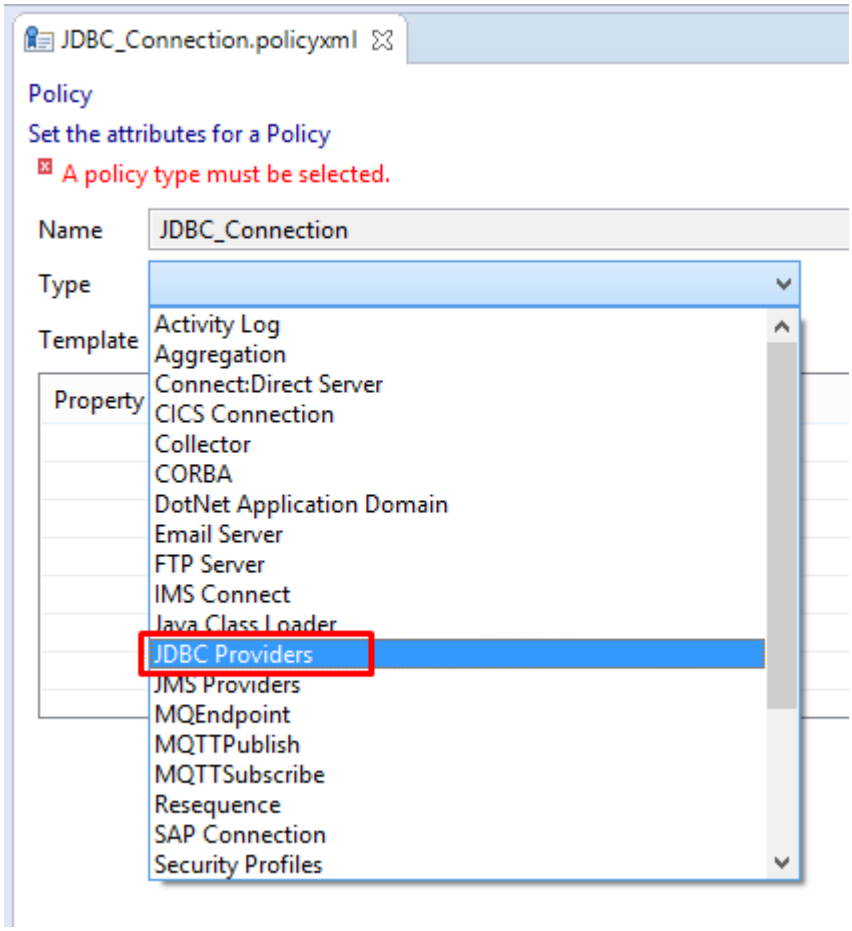
Create a Policy project
Create a Policy project
Create a Policy project which contains policies to control the behaviour of your Integration Server.
Name
JDBC_Policy
Finish
Cancel



JDBC_Policy
(New...)
New Artifact
Create a new artifact.
Policy
WS Policy Sets and Bindings



New Policy
Create a policy
A policy contains a set of configurable properties
Policy Project:
JDBC_Policy
New...
Policy name:
JDBC_Connection
Finish
Cancel



JDBC_Connection.policyxml
Policy
Set the attributes for a Policy
A policy type must be selected.
