

The screenshot shows the IBM Integrated Solutions Console interface. On the left is a navigation tree with categories like 'Guided Activities', 'Servers', 'Applications', 'Services', 'Resources', 'Security', 'Environment', 'System administration', 'Users and Groups', 'Monitoring and Tuning', 'Troubleshooting', 'Service integration', and 'UDDI'. Under 'System administration', 'Deployment manager' and 'Node agents' are highlighted with red boxes. On the right, the 'Deployment manager' configuration page is shown. The breadcrumb path 'Deployment manager > Process definition > Process execution' is highlighted in red. Below this, there is a 'Configuration' section with 'General Properties'. Fields for 'Process Priority' (20), 'UMASK' (022), 'Run As User', 'Run As Group', and 'Run In Process Group' (0) are visible. The 'Run As User' and 'Run As Group' fields are highlighted with red boxes and red arrows pointing to them. At the bottom of the configuration area are buttons for 'Apply', 'OK', 'Reset', and 'Cancel'.
