Aggregation - Render Mode:

This setting will revert to SSA during runtime if the theme assigned with the page does not support CSA.

- Inherit Parent Render Mode
- Client Side Aggregation - Rendering
- Server Side Aggregation - Rendering

Page Properties

Properties:

- This page can be added to a user's My favorites list.
- Users can derive pages from this page.

Type of Page

A content page with these properties:

URI of Layout Template of HTML: dav:fs-type1/themes/Portal8.5/CTC/layout-templates/4rowsplitmain/

[Update Static Content page layout properties](#)

Page Cache Options

Set the cache options for the page, the lesser value of cache expiry seconds between the page and the portlets used on the page will determine the actual cache expiry seconds.

Cache Scope

- Non-shared cache for a single user
- Shared cache across users

Cache Expiration

- Cache always expires
- Cache never expires
- Cache expires after this many seconds:

Cache Access Control

- Ignore access control in caches

Advanced options

- This page has a list of allowed portlets.

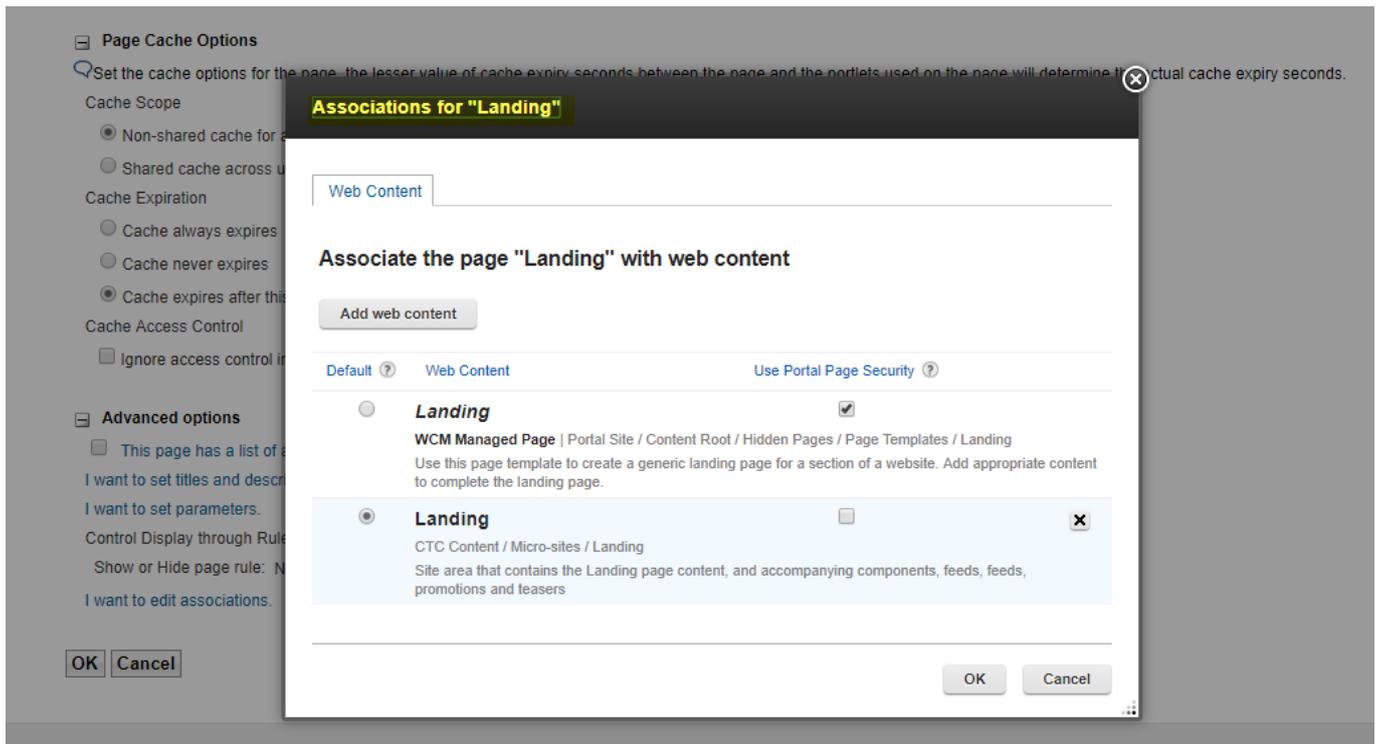

[I want to set titles and descriptions.](#)
