

En este artículo vamos a mostrar algunas pantallas de la instalación de **IBM WebSphere Portal Server 9**, **IBM WebSphere Application Server 9**, **IBM Web Content Manager 9** en un sistema operativo **Red Hat Enterprise Linux 7 64 bits**.

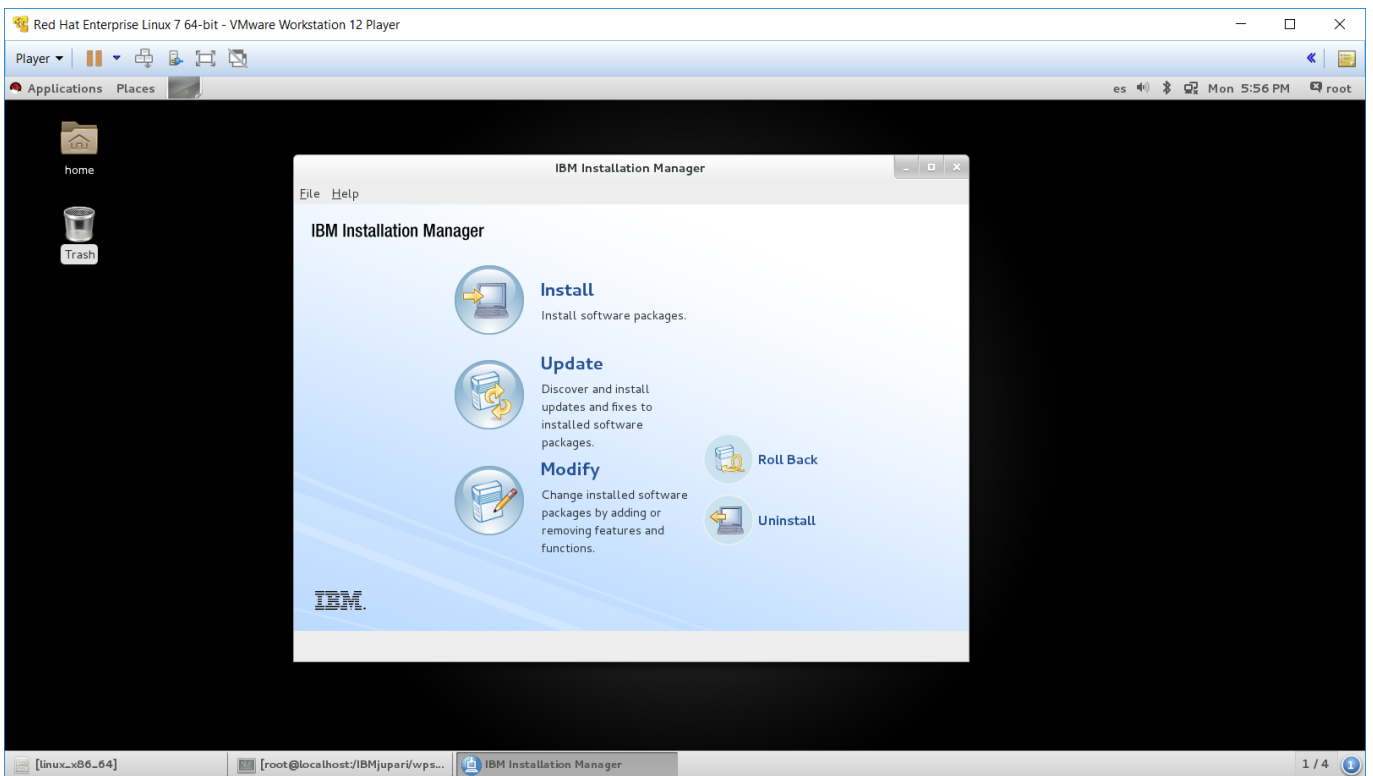

## 1. Descomprimir los 4 .zip en una sola carpeta SETUP

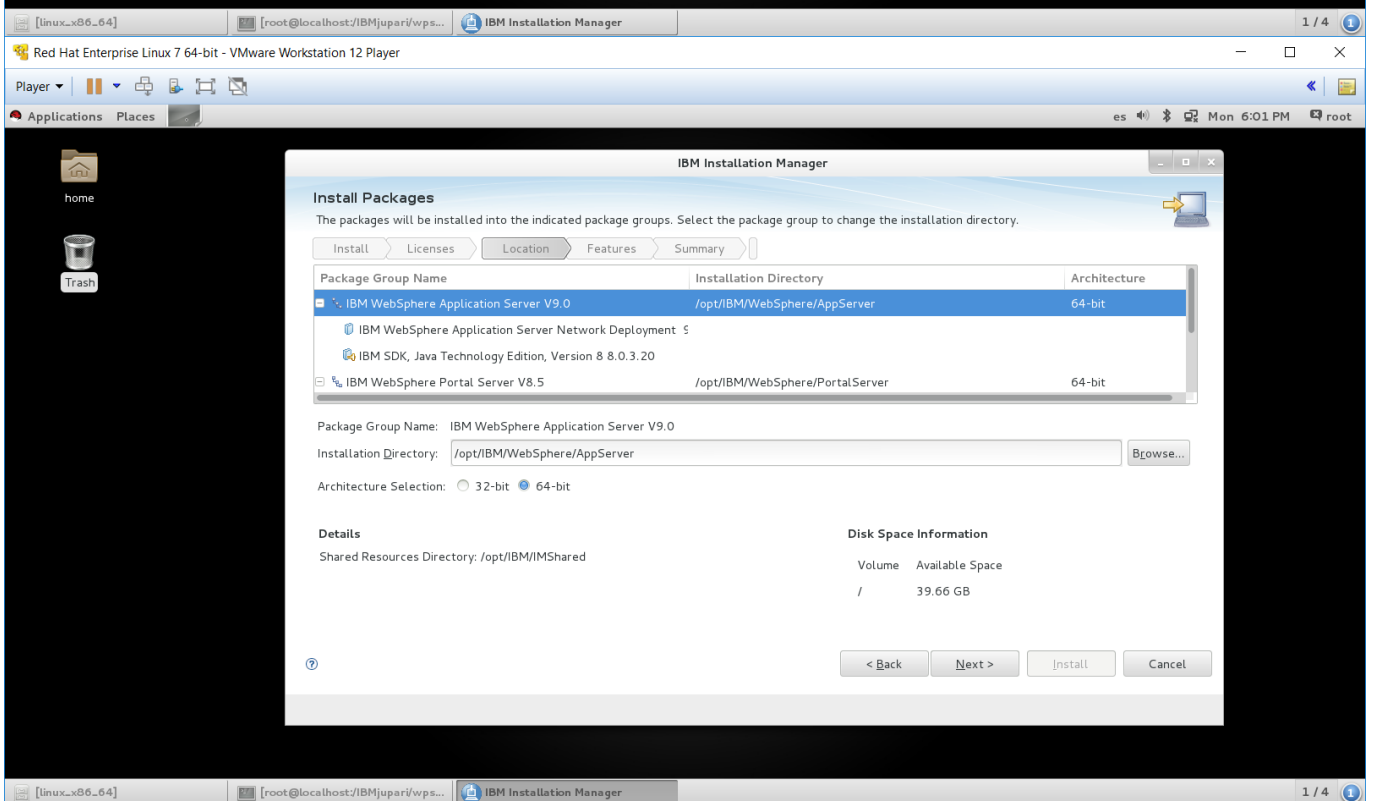

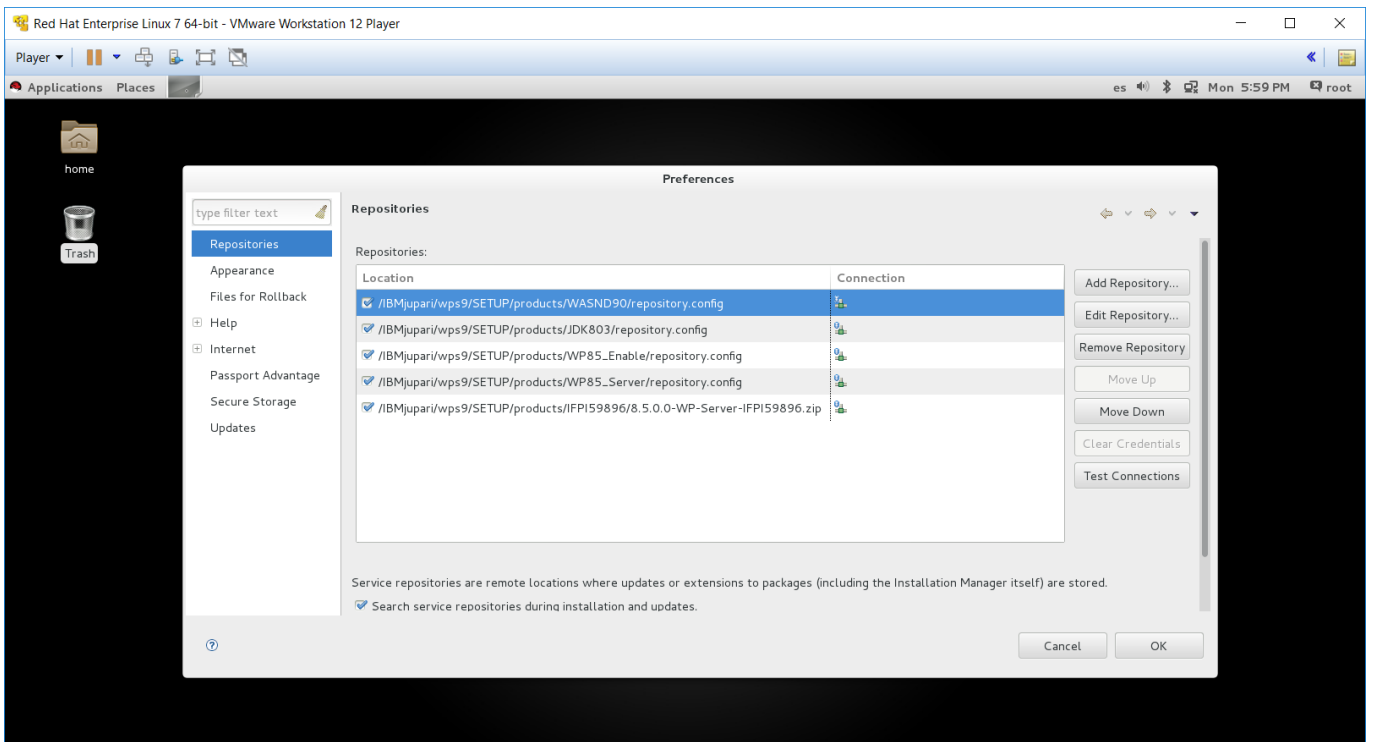

## 2. En la carpeta /products se observa todos los productos a instalar

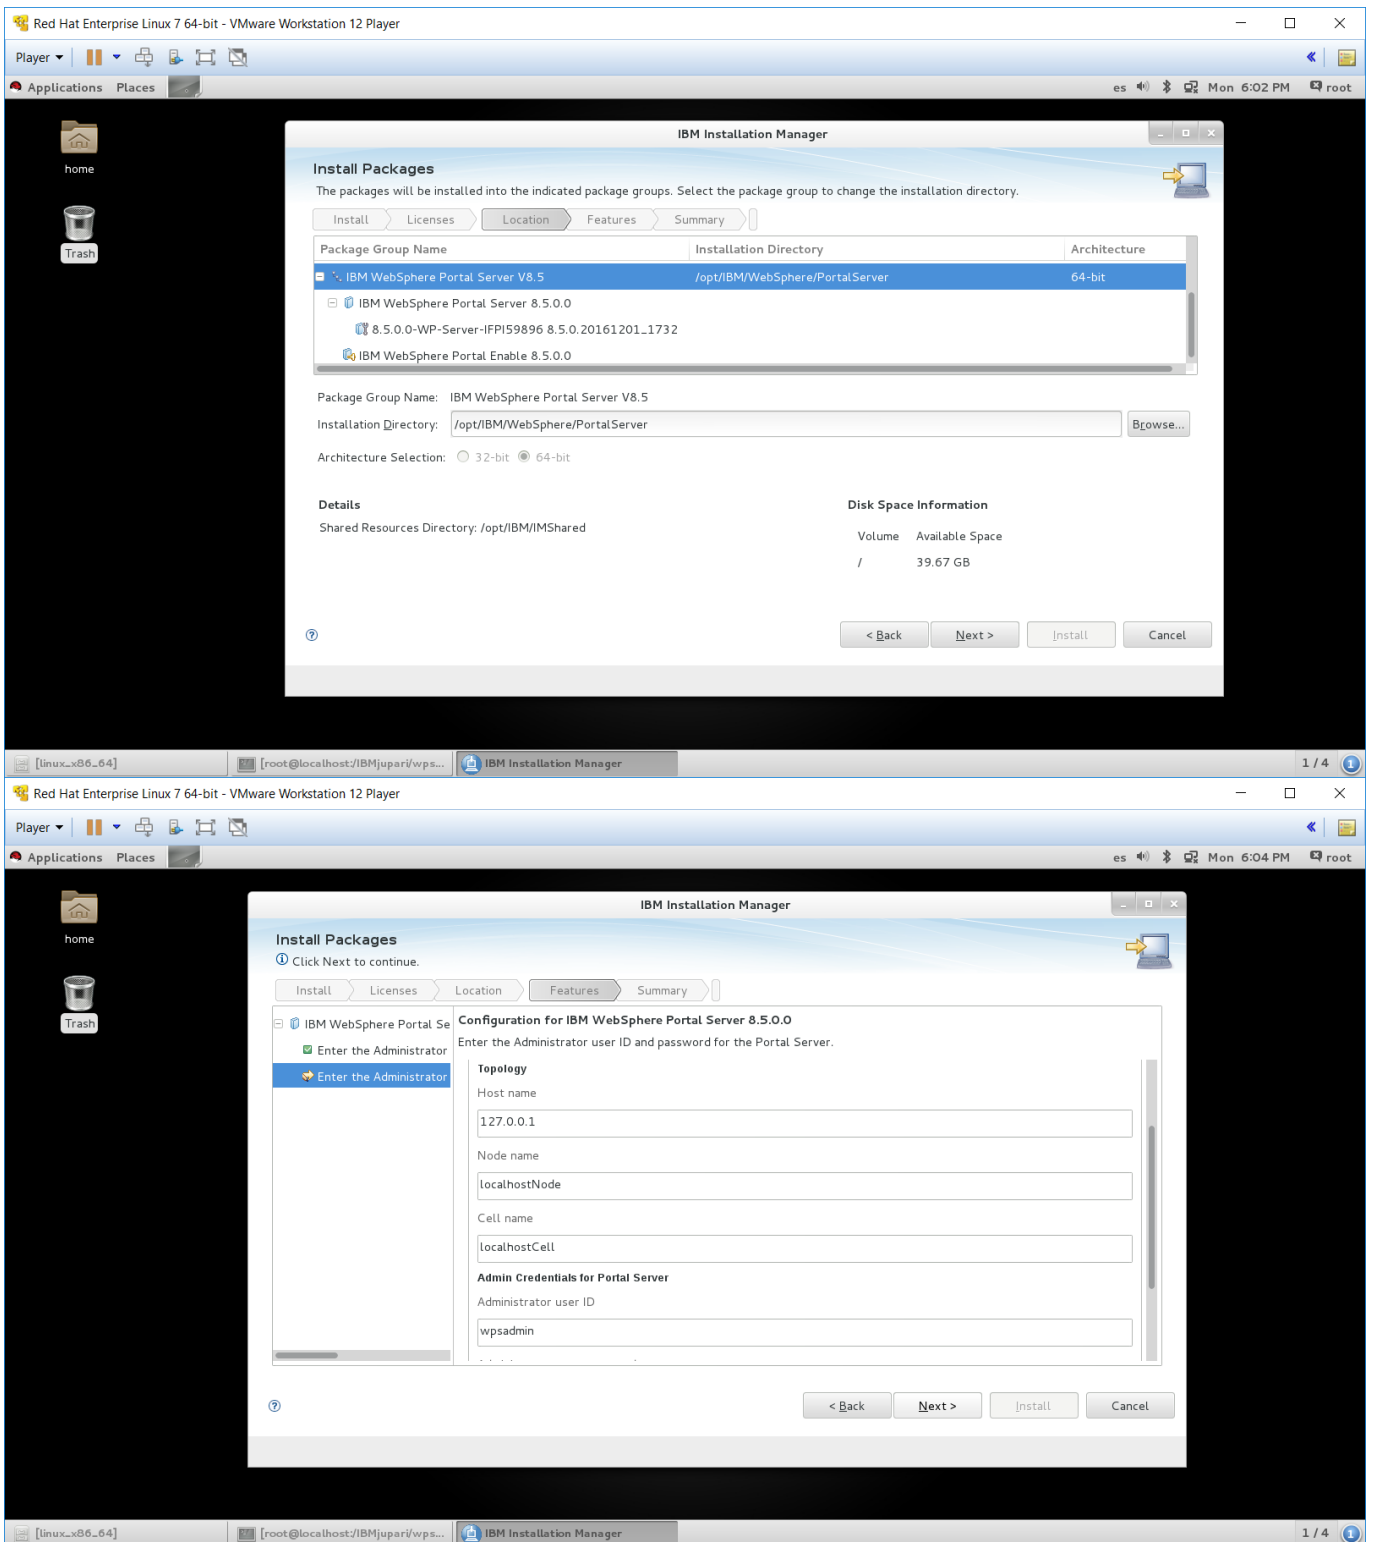

### 3. Iniciamos el proceso de instalación

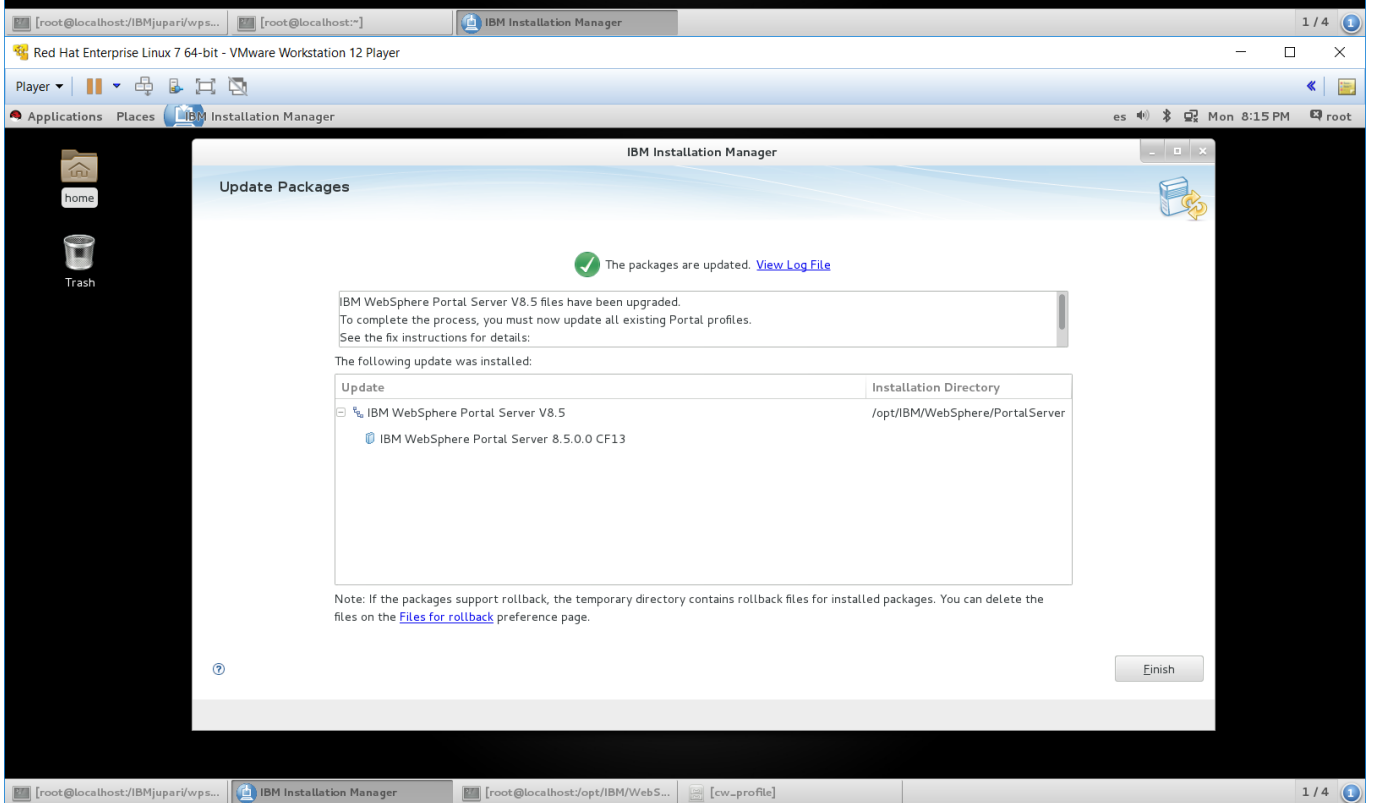

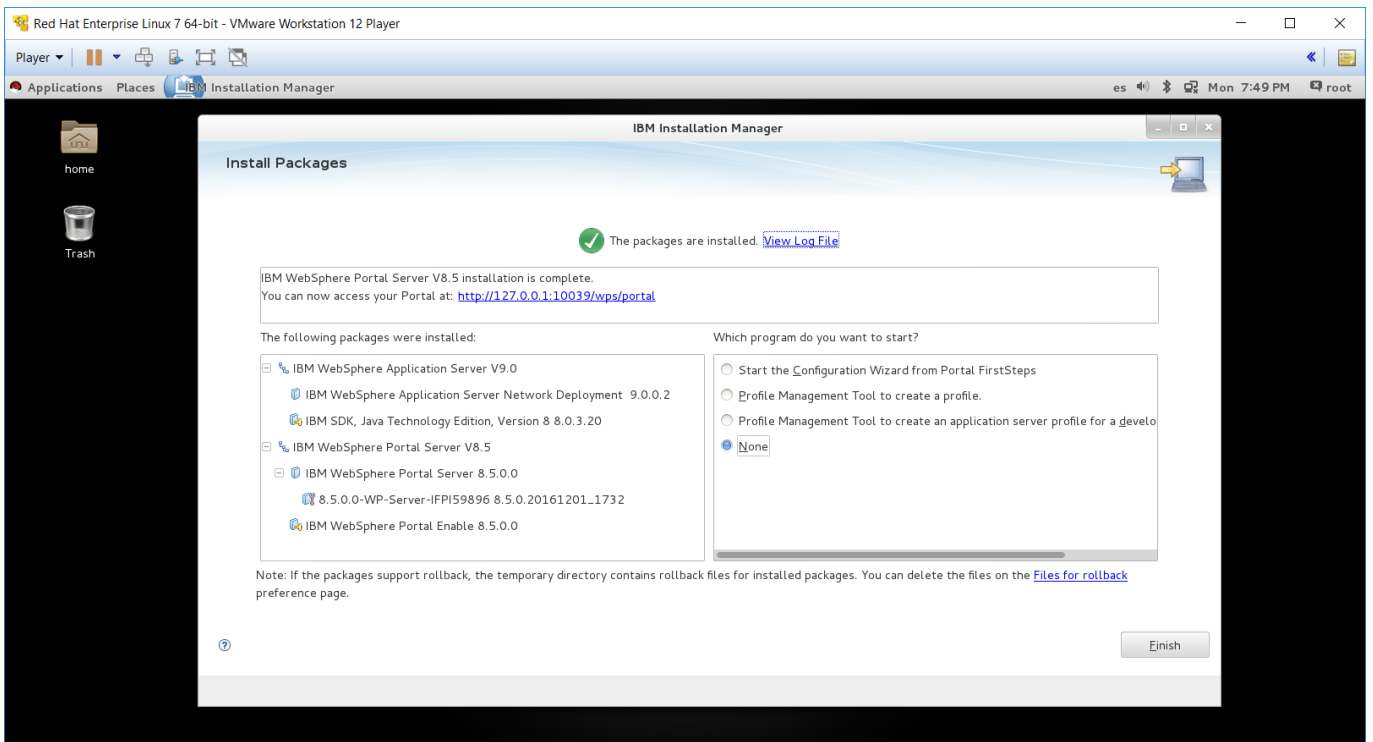

# Instalación de IBM WebSphere Portal Server 9 en Red Hat Enterprise Linux 7 64 bits (IBM WCM 9 Included) | 3

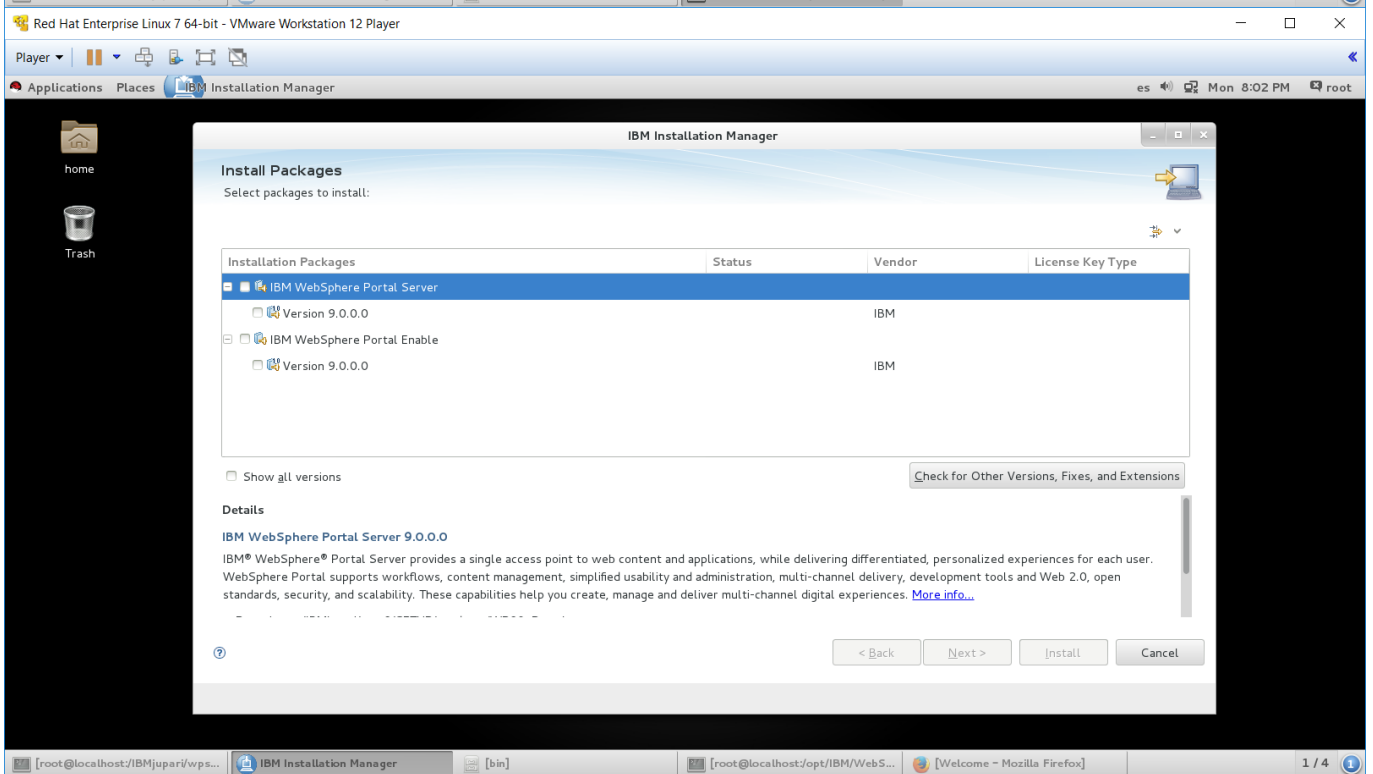

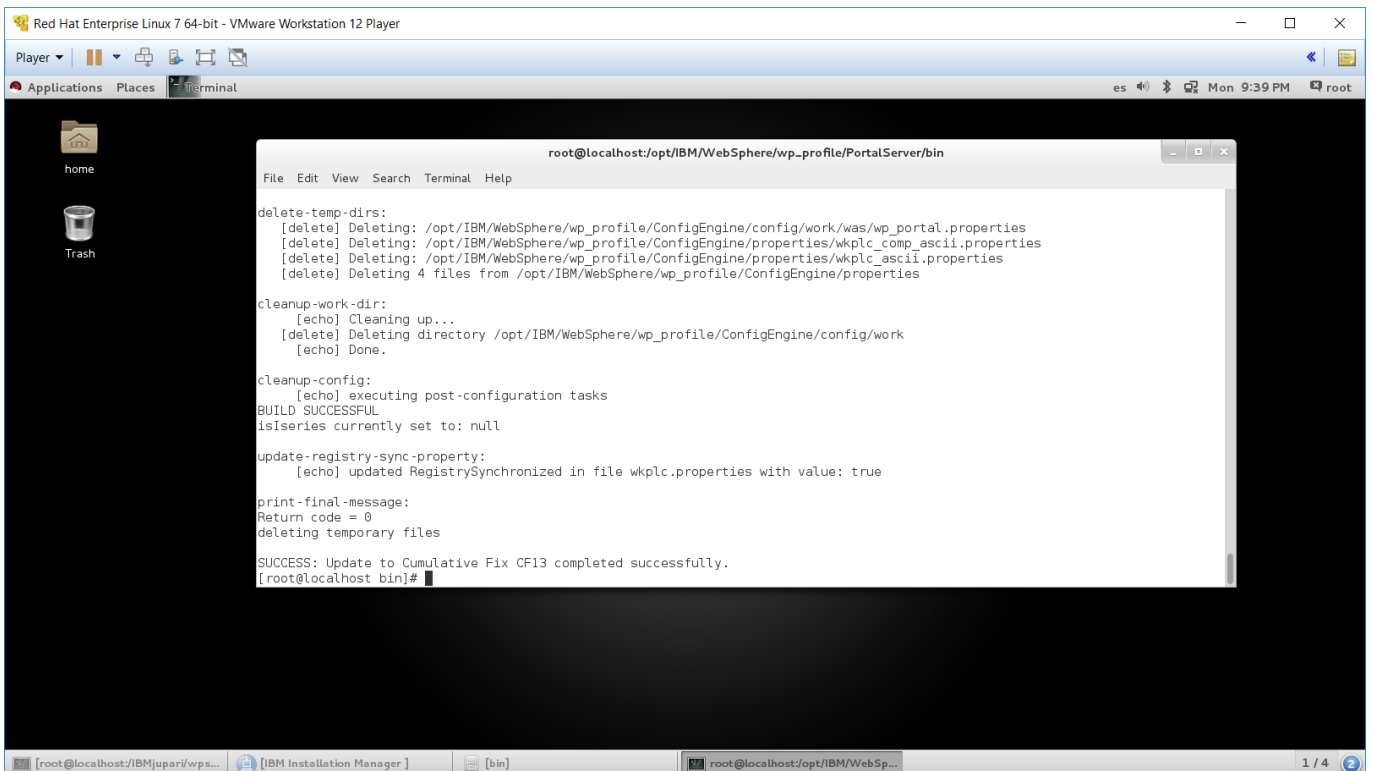

# Instalación de IBM WebSphere Portal Server 9 en Red Hat Enterprise Linux 7 64 bits (IBM WCM 9 Included) | 4

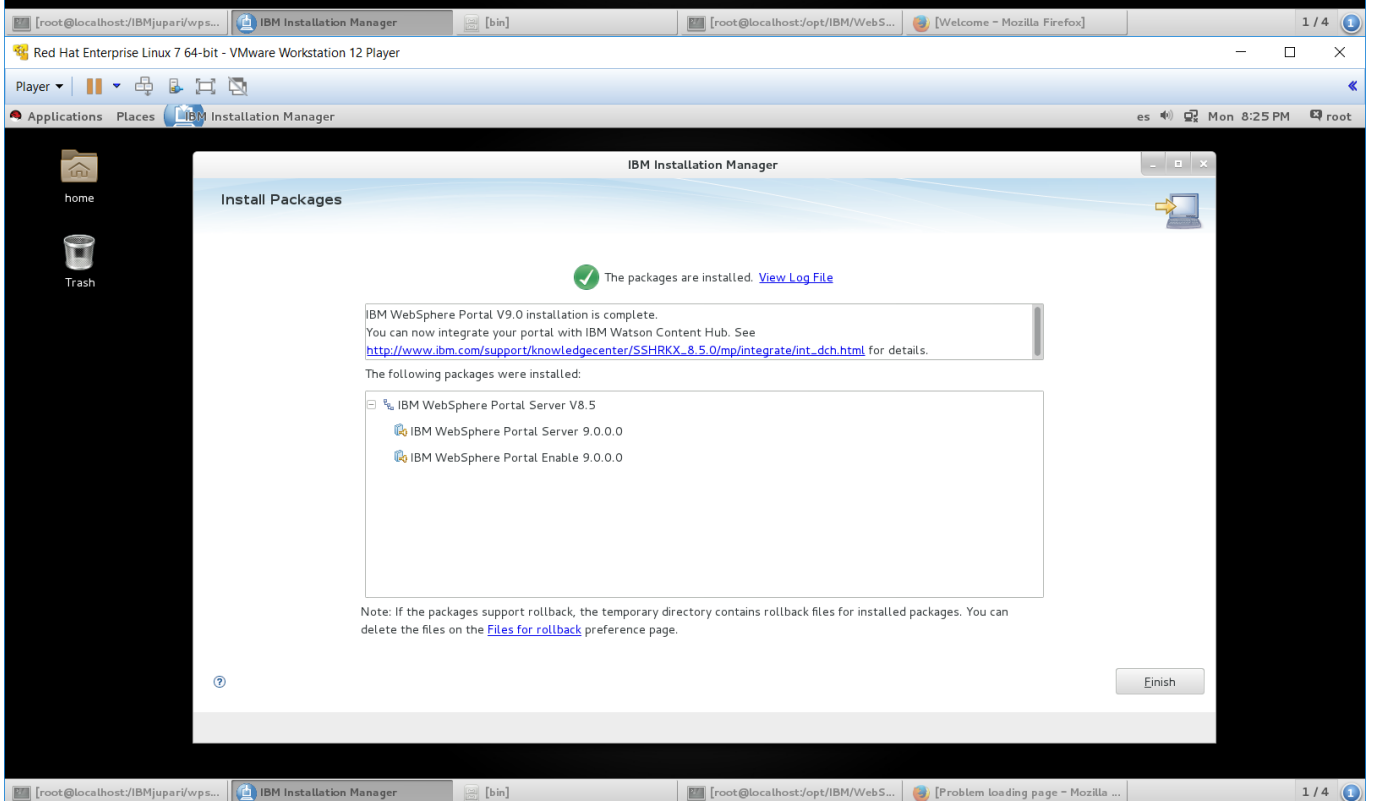

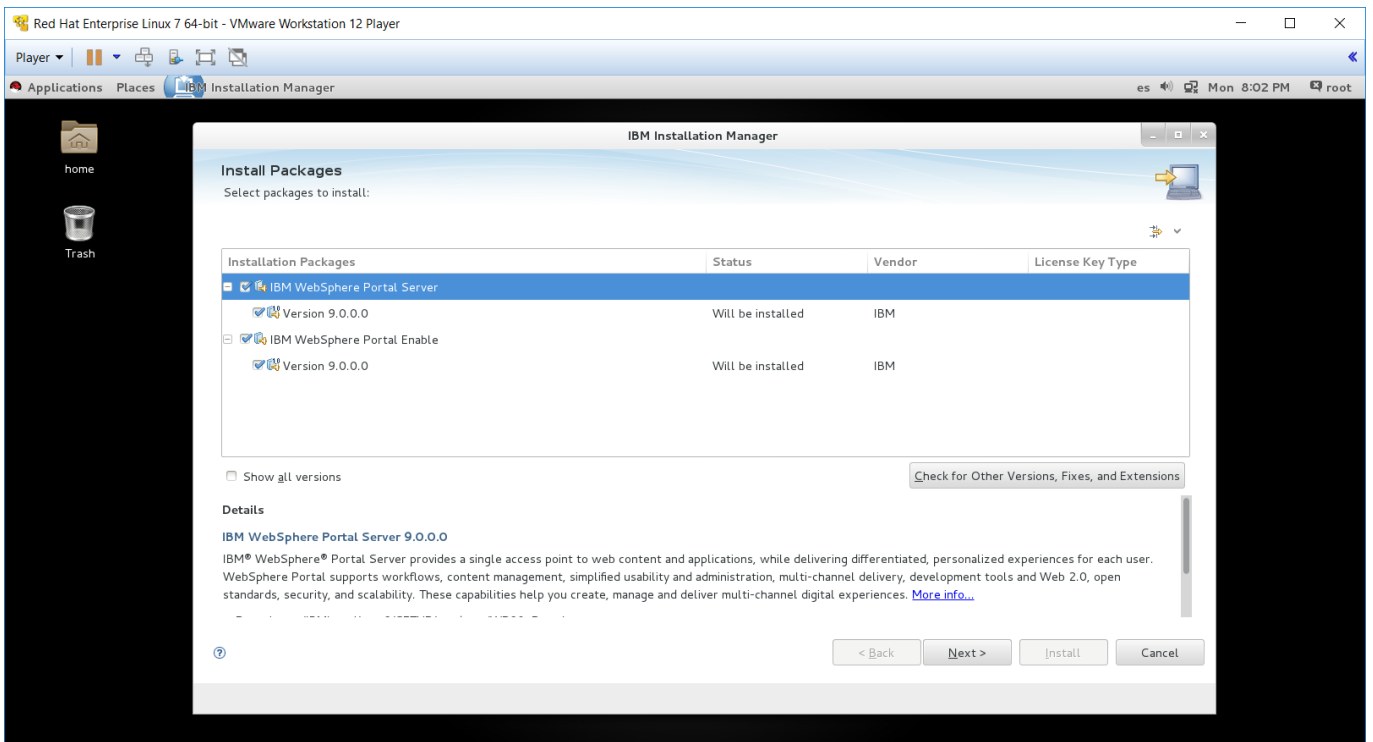

# Instalación de IBM WebSphere Portal Server 9 en Red Hat Enterprise Linux 7 64 bits (IBM WCM 9 Included) | 5

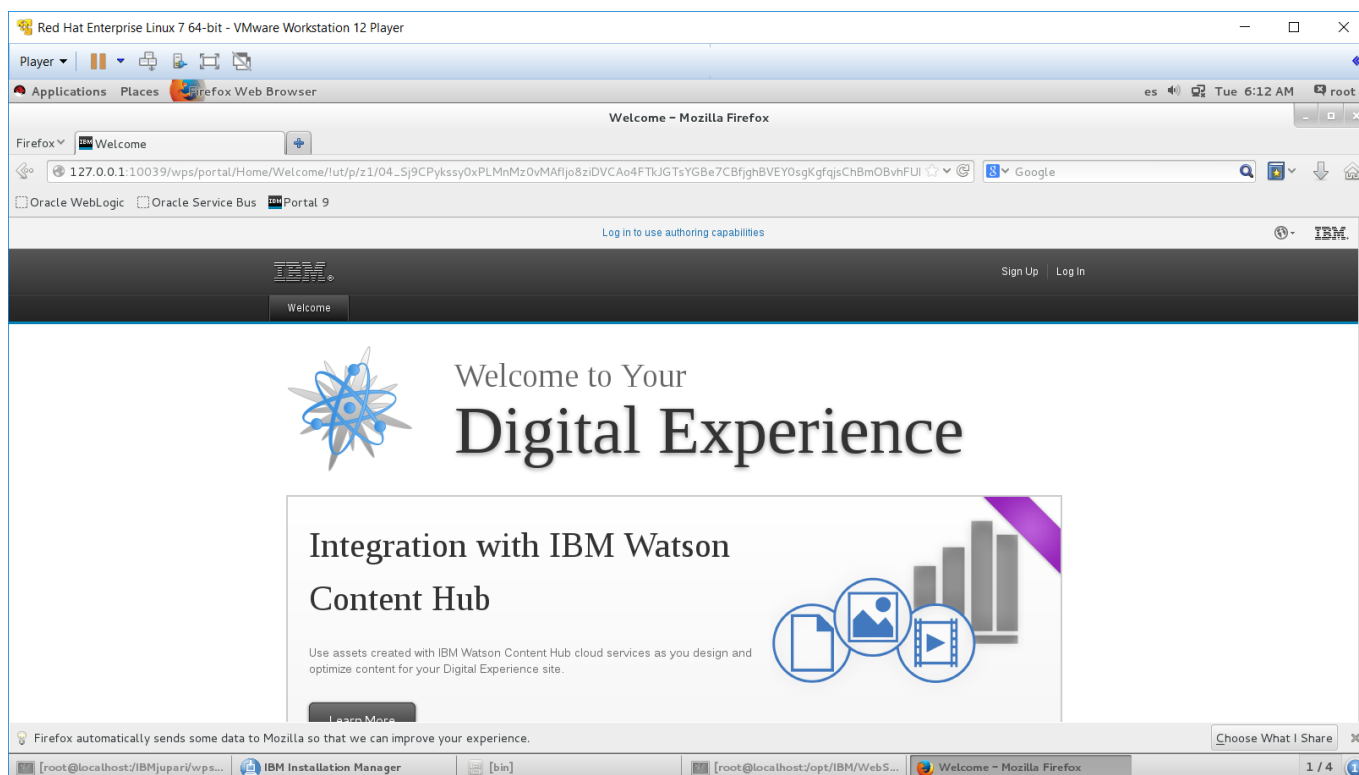

# Instalación de IBM WebSphere Portal Server 9 en Red Hat Enterprise Linux 7 64 bits (IBM WCM 9 Included) | 6

# Instalación de IBM WebSphere Portal Server 9 en Red Hat Enterprise Linux 7 64 bits (IBM WCM 9 Included) | 7

**Documentación:** Se recomienda seguir los pasos descritos en el PDF ya que hay que detener en algunos momentos a WAS y WPS.
