

[cyberduck](#) - Herramienta para acceder vía WebDAV a Themelist de Portal 8.5

A screenshot of the 'Open Connection' dialog box in Cyberduck. The dialog is titled 'Open Connection' and has a close button in the top right corner. It features a dropdown menu for 'WebDAV (Web-based Distributed Authoring and Versioning)'. Below this, there are input fields for 'Server' (10.10.10.18) and 'Port' (10039). The 'URL' field contains 'http://wpsadmin@10.10.10.18:10039/web/mycontent...' with a warning icon to its right. The 'Username' field is 'wpsadmin' and the 'Password' field is masked with dots. There are two checkboxes: 'Anonymous Login' and 'Save Password', both of which are unchecked. At the bottom right of the main section are 'Connect' and 'Cancel' buttons. Below this is a 'More Options' section with an expandable arrow. It contains a 'Path' field with '/web/mycontenthandler/dav/themelist', a 'Connect Mode' dropdown set to 'Default', and an 'Encoding' dropdown set to 'Default'.
